Motorized Watercraft in Waterton Lakes National Park

To our Members of Parliament and Parks Canada employees,

We, the people, are angry that more is not being done to reopen Waterton Lakes National Park to motorized watercraft. For decades, Canadians have been allowed to use these public lakes for responsible recreational use and now this right is being denied us.

This needs to change.

Various citizen groups, including Public Land Alliance, have reached out to Waterton Lakes National Park with solutions, which you have ignored. They have even offered to help raise funds to run a decontamination program for motorized watercraft.

With the aid of decontamination units, which are currently being used at Whitefish Lake, Montana, U.S.A., we can maintain the safety of the Waterton Lakes ecosystem and enjoy recreational activities on these public lakes. We want the use of our lakes back for the 2017 season.

More information about the Whitefish Lake decontamination program is available at:
www.whitefishlake.org/AIS_Mgmt_Pgm.php.

Thank you,
